

VersiDrain® 8 Geo

Dimpled Plastic
Drain Sheet

VersiDrain® 8 Geo is a dimpled plastic sheet that provides effective drainage and waterproof membrane protection on foundation walls and other underground structures. The integrated non-woven geotextile covering the dimples prevents soil particles blocking the drainage sheet, creates an air gap for reliable ventilation and allows inflow and transport of water from surrounding soil.

VersiDrain® 8 Geo with its dimple structure effectively captures and transports high water volumes and resists high loads from earth and formwork.

VersiDrain® 8 Geo is installed with the geotextile facing the backfill.

Applications

Typical areas of application include:

- Retaining and basement walls
- Tunnels and landfills
- Paved areas
- Roof gardens and landscaped decks

Advantages

- Provides an efficient drainage system for underground structures
- Acts as a protection layer over waterproofing membranes
- Creates a vapour and thermal insulation barrier adjacent to waterproofing membranes
- Compressive strength permits usage in moderate load-bearing situations of up to 250 kN/m² (25 t/m²)*
- Wide and easy to handle rolls result in rapid and low cost installation

1. Basement wall
2. Waterproofing membrane
3. **VersiDrain® 8 Geo**
4. Sub-soil drain
5. Gravel
6. Backfill
7. VersiDrain® Edge Profile

**Sub-Surface Drainage and
Waterproofing Membrane Protection**

* **VersiDrain® 10 Geo** is recommended in situations subject to weight bearing loads of >250 kN/m²

Specifications

Material: High density polyethylene

Weight: approx. 775 g/m²

Sheet thickness: approx. 0.6 mm

Dimple height: 8 mm

Void volume between dimples: approx. 5.3 l/m²

Drainage capacity: approx. 4.6 l/s.m
approx. 276 l/min.m
approx. 16,560 l/h.m

Geotextile weight: 136 g/m²

Geotextile water transmission: approx. 100 l/s.m²

Compressive strength: approx. 250 kN/m² (25 t/m²)

Service temperature: -30°C to 80°C

Biological/chemical resistance: Resistant to ground chemicals, rot, moulds, algae, bacteria and root penetration. Does not affect potable water.

Fire resistance: B2 (DIN 4102)

VersiDrain® 8 Geo may be fastened to substrates using proprietary VersiDrain® fixing accessories.

VersiDrain® 8 Geo is manufactured and tested according to DIN 18 195, DIN 4095, DIN 4102, DIN 53 576 and BS 8102 or UNI 5819 and UNI 10319

VersiDrain 8 Geo provides efficient drainage of basement and retaining walls and waterproof membrane protection
